

About Us ■■■

'Supersil' is India's leading exponent in the development and supply of advanced Metal Suspended Ceiling Systems. The strength behind this ever developing product range is not only the company's major manufacturing plant located at Modasa, Gujarat, India but also its continuous and energetic production development programme, since 1983.

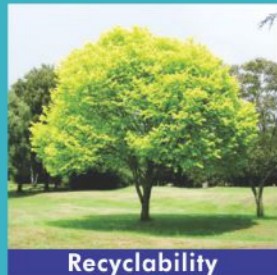

Supersil pioneered the introduction of Metal Suspended Ceilings to the Indian building market more than twenty five years ago. Since then, the company has invested continuously in research and state of the art techniques to ensure that the name 'Supersil' remains at the forefront of suspended ceilings market technology.

Having executed millions of square meters projects all over India, Supersil now forays into the manufacturing of Access Floor Systems at its new plant at Odhav, Ahmedabad, Gujarat. We will give Cementitious, Particle board and Calcium Sulphate Panels in Raised Flooring with all accessories required.

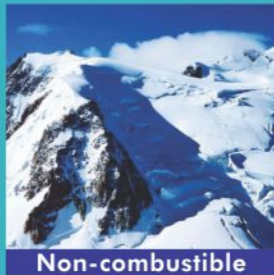

Supersil is the only company in India having the high range of panels in Ceiling & Flooring with all accessories manufactured in house to control quality.

Supersil believes in Reusable and Recyclable products enhancing the application for Buildings of Environmental Friendliness in addition to the Performance related with Fire & Acoustics.
